

Dear Fellow Counterfeiter,

Yo what's up? Long time no see. Counterfeiting Monopoly Money is so cool. I plan to violate the Monopoly equivalent of the Counterfeit Detection Act of 1992, Public Law 102-550, in Section 411 of Title 31 of the Code of Federal Regulations (31 CFR 411). The only permit illustrations of currency if

1. The illustration is of a size less than three-fourths or more than one and one-half, in linear dimension, of each part of the item illustrated;
2. The illustration is one-sided; and
3. All negatives, plates, positives, digitized storage medium, graphic files, magnetic medium, optical storage devices, and any other thing used in the making of the illustration that contain an image of the illustration or any part thereof are destroyed and/or deleted or erased after their final use.

But you know me, I don't care. I'm going to make illustrations that are exactly the same size as official Monopoly money, two-sides and I'm not going to destroy any of the tools I use to make it. I doubt that those suits on Boardwalk are going to do anything about it.

See you in Tacoma,
